

Muhammad Ummar

DevOps Engineer | Full Stack Developer (MERN)

Lahore, Pakistan | (+92)-326-9464890 | ummar.tech@gmail.com | linkedin.com/in/muhammad-ummars | ummarportfolio.me

SKILLS

DevOps & CI/CD: Jenkins, GitHub Actions, GitLab CI/CD

Containerization: Docker, Docker Compose

Version Control: Git, GitHub, GitLab (branching, PRs, code reviews)

Cloud Fundamentals: AWS (EC2, S3 basics), Vercel, Netlify

Backend: Node.js, Express.js, RESTful APIs, JWT Auth

Frontend: React.js, React Native, HTML5, CSS3, JavaScript (ES6+)

Database: MongoDB, Mongoose, MongoDB Atlas

Languages: C, C++, Python, JavaScript

Interpersonal: Microsoft Office Suite, Problem Solving, Self-motivated, Willingness to learn

PROJECTS

Online Shopping Website

- Developed a fully functional e-commerce website as part of a team project.
- Built using HTML, CSS, JavaScript, Node.js, and MongoDB for backend database management.
- Implemented user authentication, product listings, and shopping cart functionality.

School Management System

- Designed and implemented a student information system using the MERN Stack.
- Enabled user registration, course enrollment, and transcript generation features.

Age Calculator

Live: <https://age-calculator-orphin-chi-67.vercel.app/>

- Designed and implemented a responsive, well-structured web app using the MERN Stack.

VIRQA – Voice-Based Intelligent Real-Time Questioning System

Live: <https://virqa-project-qjvs.vercel.app/>

- Designed and implemented a full-stack web app using the MERN Stack.
- Used TanStack Query, Socket.io for real-time functionality, and Docker for containerization.
- Configured GitHub Actions CI/CD pipeline for automated deployment.

EXPERIENCE

Final Year Project (FYP) – VIRQA

- Developed a full-stack web application using the MERN Stack as the capstone project for my Software Engineering degree.
- Designed and implemented RESTful APIs, user authentication with JWT, and a responsive frontend interface.
- Managed project architecture, database schema design, and deployment pipeline independently.
- Containerized the application using Docker and set up GitHub Actions CI/CD pipeline.

MERN Stack Internship

04-2025 – 07-2025

Zenith Tech, Lahore

- Contributed to building and maintaining web applications using MongoDB, Express.js, React.js, and Node.js.

- Developed reusable UI components in React.js and integrated them with backend REST APIs.
- Collaborated with the development team on code reviews, bug fixes, and feature implementations.
- Gained hands-on experience with Git version control, CI/CD pipelines, agile workflows, and deployment practices.

EDUCATION

University of Central Punjab, Lahore

Oct 2022 – Present

Bachelor of Software Engineering | CGPA: 3.65

- Major: Software Development / DevOps Engineer | Minor: MERN Stack

Area High School, Shakargarh

Mar 2019 – May 2022

Intermediate in Sciences (Pre-Engineering)

LEADERSHIP & ACTIVITIES

Member, IGC — University of Central Punjab

Dec 2023 – Present

- Volunteered in women empowerment campaigns and raised funds for charitable causes.
- Assisted in organizing an on-campus event attended by over 700 people.
